Chhatrapati Sambhajinagar

SKILLS

Web Development Technologies:
- ReactJS, React Native
- Redux, Redux Toolkit
- Jest & React Testing Library
- JavaScript (ES6+)
- HTML5, CSS3, JSON, XML
- Webpack & Babel RESTful
- API Integration
- OAuth2 & JWT Authentication
- Canvas, JSON, Responsive Design
- Principles Bootstrap, Tailwind
- CSS Material UI, Styled
- Components, Grid, Material Table
- Highcharts,
- SEO Best Practices
- Cross-browser Compatibility
- Testing & Debugging
- Performance Optimization

Programming Languages:
- Core Java
- Python
- Php
- Node.js

Additional Skills:
- Version Control Systems (Git, GitHub, GitLab, etc.)
- Code Quality Assurance
- Chrome Extension Development
- Web Scraping, PostgreSQL,
- MySQL, MongoDB

EDUCATION

Master in Computer Applications
Government College of Engineering, Chhatrapati Sambhajinagar -
(2017 to 2020)

Bachelor of computer sciences
Deogiri college ,
Chhatrapati Sambhajinagar -

SUMMARY

Full Stack Developer with 2 years of hands-on experience in designing and delivering scalable web applications. Proficient in ReactJS, JavaScript, HTML5, and CSS3, with expertise in Redux Toolkit for state management and RESTful API integration. Skilled in creating responsive, user-focused interfaces using Material UI, Bootstrap, and Tailwind CSS. Strong backend development knowledge in Node.js, Express.js, and MongoDB, enabling end-to-end application development with a focus on performance, security, and maintainability.

WORK EXPERIENCE

11-Octomber 2023-Present

Full Stack Developer

SDLC Corp Pvt Ltd, Chhatrapati Sambhajinagar

(2013 - 2016)
- Full Stack Developer with 2 years of hands-on experience in MERN stack development, delivering scalable and high-performing web applications across healthcare, fintech, and analytics domains.
- Proficient in designing and developing RESTful APIs, ensuring secure integrations and optimized application performance.
- Experienced in building interactive, user-centric single-page applications (SPAs) with ReactJS and modern UI frameworks.
- Worked in a startup environment, contributing to multiple projects and quickly adapting to different technologies and tools.
- Skilled in implementing state management with Redux Toolkit, integrating APIs, and ensuring seamless front-to-backend communication.
- Collaborated with cross-functional teams in Agile/Scrum setups, driving timely deliveries and aligning solutions with business needs.
- Passionate about exploring new technologies, solving complex problems, and delivering clean, maintainable code to enhance user experience.. Mentored interns, interview selection process.
- Established coding standards documentation to ensure consistency and quality.

Full Stack Web Developer

Fyntune Solution Pvt Ltd, Navi Mumbai   20th March 2023-June 2023
- As a Backend Developer at FynTune Solution Pvt Ltd, I contributed to building and optimizing digital insurance platforms by integrating backend APIs of leading insurance providers such as IFFO Tokio General Insurance. API Integration
- Performed data mapping of vehicle information, ensuring accuracy and consistency Performed Unit Testing of SQL Queries to maintain data accuracy and Implemented performance, and seamless partner integration. I also collaborated. frontend team to deliver real-time dashboards enhancing user experience and system efficiency insurance providers such as IFFO Tokio General Insurance

Associate Software Engineer

Saama Technologies (India) Pvt Ltd, Pune   06-Jul-2021 - 11-Nov-2022
- As an Associate Software Engineer, I contributed to the design and development of frontend modules for applications, building responsive and user-friendly interfaces using ReactJS, JavaScript, and Material UI. I collaborated with cross-functional teams to integrate frontend components with backend services, ensuring seamless data flow and system stability. My responsibilities included implementing dynamic dashboards, interactive UI elements, and reusable components, which improved user engagement and reduced development time Data mapping of vehicle data and process data from various online sources, automating complex data extraction
- In addition to frontend development, I worked extensively on SQL query optimization and unit testing to ensure data accuracy and reliable performance across modules. I also performed API testing and validation to guarantee functionality, scalability, and system reliability. By combining frontend expertise with backend validation, I helped deliver high-quality solutions that enhanced both user experience and system efficiency
